

K-LOVE radio serves our community by giving us a radio station full of Christian music that we can listen to 24 hours a day/365 days a year. There is never anything on the broadcast that is even close to marginal in content. I gladly support the radio station, financially and wish I could give even more than I do, currently. The effect we would see as a community would be terrible due to the fact that the station is available any time of day, to and from work, and elsewhere. The DJs, alone, are encouraging to listen to. Their words encourage me in my marriage, with my children and in all my walks in life. K-LOVE should remain on the air, just as they are and without change. The broadcast is healthy for building family values and in challenging the listeners to follow the ways of God, and not the secular ways that can so often turn into destruction. I am lifted greatly each day by the music on K-LOVE. It turns every day into a new beginning and brings life!
